SUMMARY

I am a Full-Stack Web Developer adept in front-end and back-end solutions. I am able to effectively self-manage during independent work as well as collaborate on projects and lead teams to complete tasks. I work with a variety of technologies every day and can pick up new languages and frameworks with ease.

SKILLS

FRONT-END: Javascript, React, HTML, CSS, SASS/SCSS, EJS, Ruby

BACK-END: Node.JS, Express, SQL, Rails

FRAMEWORKS & LIBRARIES: jQuery, MySQL, Axios, MaterialUI, MySQL, PostgreSQL, Bootstrap, Docker

DEVELOPER TOOLS: Git, Github, Google Cloud, Agile Development, React Testing Library, Mocha/Chai, Jest, Storybook, Cypress

EMPLOYMENT

From Lab 2 Fulfillment, *Software Engineer*, Remote

Jan. 2023 - Mar. 2023

- Mainly using React, JS, Node, and Express, I created several new full-stack apps to my employers specifications.
- Used Agile workflow to collaborate with colleagues and git for source control.
- Analyzed code written by others in several languages to find and fix bugs or update code base.
- Deployed apps using Google Cloud Repositories and Cloud run to deploy Docker containers onto the web.

Various Employers, *Freelance Web Developer*, Beamsville, ON

2022 - Current

- Built, updated, and deployed several websites and web applications for various employers.
- Used a variety of coding languages to deliver clean, functional code in a timely manner.

Grand Niagara, *Maintenance Supervisor*, Niagara Falls, ON

2015 - 2022

- Managed a team of employees and led the completion of various projects.
- Collaborated with management to increase worker efficiency in certain areas by up to 25%.

Concentrix, *Technical Support Advisor*, Niagara Falls, ON

2020 - 2020

- Handled a variety of customer requests and dealt with any new issues as they arose.
- Adapted and learned constantly for continued efficiency on calls.

PROJECTS

Simpli

Simpli is a team-based project tracking productivity app. Projects are mapped through a list of deliverables, each containing its own list of tasks.

Front-end: React, JS, CSS, HTML

Back-end: Node, Express, SQL

Interview Scheduler

Interview Scheduler is a Single Page Application built for creating and tracking student interviews.

Front-end: React, JS, CSS, HTML

Back-end: Node, Express, SQL

Test: Jest, Storybook, Cypress

Resource Haven

Resource Haven allows learners to save learning resources (i.e. urls) like tutorials, blogs and videos in a central place that is publicly available to any user.

Front-end: HTML, CSS, JS, EJS, Sass, JQuery

Back-end: Node, Express, SQL

WOGSA Redesign

Contract for a redesign that turned an out of date website into a modern single-page responsive site.

Stack: HTML, CSS, JS, JQuery

Ongoing Property Booking Project

Contract to create a single page booking app for a property owned by the client.

Front-end: React, JS, CSS, HTML

Back-End: Node, Express, PostgreSQL
