NEALE TAYLOR
WEB DEVELOPER

Summary

I am a Full-Stack Web Developer adept in front-end and back-end solutions. I've worked with an assortment of technologies including Javascript, React, HTML/CSS, SQL and more. I am also able to effectively self-manage during independent work as well as collaborate on projects and lead teams to complete tasks.

Employment

From Lab 2 Fulfillment
Software Engineer
Remote
Jan. 2023 to Current
- Mainly using React, JS, Node, and Express, I created several new full-stack apps to my employers specifications.
- Used Agile workflow to collaborate with colleagues and git for source control.
- Analyzed code written by others in several languages to find and fix bugs or update code base.
- Deployed apps using Google Cloud Repositories and Cloud run to deploy Docker containers onto the web.

Various Employers
Freelance Web Developer
Beamsville, ON
2022 to Current
- Built, updated, and deployed several websites and web applications for various employers.
- Used a variety of coding languages to deliver clean, functional code in a timely manner.

Grand Niagara
Maintenance Supervisor
Niagara Falls, ON
2015 to 2022
- Managed a team of employees and led the completion of various projects.
- Collaborated with management to increase worker efficiency in certain areas by up to 25%.

Concentrix
Technical Support Advisor
Niagara Falls, ON
2020 to 2020
- Handled a variety of customer requests and dealt with any new issues as they arose.
- Adapted and learned constantly for continued efficiency on calls.

Projects

Simpli
Simpli is a team-based project tracking productivity app. Projects are mapped through a list of deliverables, each containing its own list of tasks.
